REMAINS OF JONH PAUL JONES ARRIVE

Squadron of Warships Bearing Body Pass Virginia Cape.

FINAL INTERMENT AT ANNAPOLIS

After the Elapse of a Century the Remains of America's Most Famous Naval Commander Will Repose in the Soil of the United States.

Norfolk, Va., Julyt 24—The body of Admiral John Paul Jones, recently found in France as the result of a long search, passed in the Virginia capes this morning on the United States cruiser Brooklyn under command of Rear Admiral Sigsbee.

Off this coast the fleet was met by the battleship squadron of the North Atlantic fleet in two divisions, the first being under the command of Rear Admiral Evans and the second commanded by Rear Admiral Davis. The three

squdarons approached the capes together, the vessels under command of Rear Admiral Evans leading and the Davis and Sigsbee squadrons closely following.

Upon the vessels reaching Cape Henry Admiral Evans' squadron passed the lower Chesapeake bay at 7:10 [illegible] Then came the Sigsbee squadron and following these were the vessels of Rear Admiral Davis' squadron.

The Sigsbee and Davis squadrons proceeded immediately up Chesapeake bay bearing the body of Admiral Jones toward Annapolis, Md., while the vessels of Admiral Evans' squadron said farewell to the other fleets and proceeded to Old Point Comfort, where enroute to Lambert's Point, where the battleships will coal.

It is understood here that Chesapeake bay the body of Admiral Jones would be transferred from the cruiser Brooklyn and placed aboard one of the upper bay lighthouse tenders, which will bear it to Annapolis for final interment on the United States naval reservation at that place.

Vessels of the Sigsbee and Davis squadrons will continue to Annapolis to take part in the ceremonies incident to the reception of the body. The ceremonies also will be participated in by the French cruiser Jurien de La Graviere, which was detached from the French North Atlantic squadron and sent to the Chesapeake Bay to represent France on this occasion. After the ceremonies at Annapolis the French vessel will return to Martinique where a new list of officers and men will be found awaiting her from France, relieving the present officers and crew, who will then return home.

Navy Department Notified.

partment today received a cablegram from Rear Admiral Evans, commanding the North Atlantic fleet, announcing the arrival this morning of his squadron of battleships and Rear Admiral Sigsbee with his fleet of cruisers, bearing the body of John Paul Jones, in Hampton Roads. The first division, the second division and Rear Admiral Sigsbee's division have sailed for Annapolis. This fleet will anchor below Annapolis tonight and appear off Annapolis tomorrow morning at 10 o'clock.

FORGOT TO HANG PRISONER.

Now He Is Seeking to Obtain His Liberty by Habeas Corpus.

Chicago, July 24.—A writ of habeas corpus in behalf of John Coles, a prisoner at the penitentiary at Joliet, has been presented to Judge George Kersten and in passing upon it the court will be compelled to decide as to whether the prisoner in a legal sense is dead or alive.

On Nov. 22, 1881, Coles in a quarrel killed a neighbor, John K. Kessell. The trial commenced Feb. 3, 1882, and Coles was sentenced to hang on March 24, 1882. He was taken to the penitentiary on a death warrant, but when the day set for the execution came around everybody seemed to forget Coles, and he was not executed. He remained ever since in the penitentiary and for 23 years has been a model prisoner. For all these years Coles has been afraid to say a word for fear that the sheriff would remember him and carry the sentence into effect. It is the opinion in the office of the state's attorney that Coles will eventually be given his freedom.

Live Stock Men In Session.

Buffalo, N. Y., July 24.—The National Live Stock exchange at yesterday's session, condemned the 28-hour stock transit law and will send a lobby to Washington to attempt its repeal. These officers were elected: President, A. L. Keechler, St. Louis; vice presidents, Charles Fitch, St. Paul; G. B. VanOrman, Milwaukee; W. M. Ward, Sioux City; Horace Wood, St. Joseph, Mo.; W. K. Sadler, Cleveland, O.; R. H. McNatt, Fort Worth, Tex.; P. J. Brinkman, Pittsburg, Pa.; F. G. Robinson, Kansas City; Charles Kelly, Chicago; secretary, C. W. Baker, Chicago; treasurer, P. S. Graves, Indianapolis.

Secretary Root at Sagamore Hill.

Oyster Bay, L. I., July 24.—Secretary Root who came here yesterday was still a guest of the president at Sagamore Hill today. Early the president, Secretary Root and Dr. Alexander Lambert took a horseback ride. As the president insisted on giving his entire time to his guests, acting Secretary Barnes did not bring to his attention any routine business during the day. Former Secretary of the Navy Paul Morton, now chairman of the Equitable Assurance society, probably will be here this afternoon to pass the night and Sunday as the president's guest.

Mr. Schwab Denies Statement.

New York, July 24.—On account of a statement that Chas. M. Schwab has been induced to give $25,000 for a copy of Fads and Fancies, Assistant District Attorney Krotel called on Mr. Schwab yesterday. Mr. Schwab declared that the statembent was absolutely untrue and that the only money he had given was $1,500 as the price of one subscription. This, he said, he had done very willingly.

New York, uly 24.—The Rev. Dr. Dean Richmond Babbitt, rector of the Church of Epiphany, Brooklyn, whose death occurred yesterday after a long illness, was well known as an author and lecturer. He was born in Warren county, Ohio, 54 years ago, and was graduated from Harvard college in 1886, and at once went as a missionary into the northwest.

FORTY-NINE DEAD; FIFTY-FIVE INJURED

From the Explosion of Boiler On Board Guuboat.

CORRECTED LIST OF THE DEAD

Commander Young, of the Gunboat Bennington, Declines to Make Official Statement as to the Cause of the Awful Disaster.

Sandiego, Cal., July 24.—An examination of the Bennington above deck today did not disclose any great damage as a result of yesterday's explosion. The vessel was covered with a coating the color of ashes. The escaping steam carried a gray-colored mud which smeared everything, even the sides of the vessel. There were broken gangways and displaced machinery of a minor character but no serious damage to the main deck was visible. It was explained by those on board that the wreckage was all below, but just how serious this is will be fully determined only after a thorough examination. Commander Young declined to make any official statement for publication. He said, however, to a reporter that he believed the disaster was caused by the explosion of boiler "D," on the port side and that boiler "B," while not exploding, had been damaged, allowing the steam to escape.

Commander Young expressed the opinion that there was a weak spot in one of the boilers, but said there had been no visible defects so far as he knew.

The men who were injured, including Ensign Perry, tell a different story. They say that it has been the talk of the ship for at least six months that the boilers were defective, and many of them had feared for a long time that just such an accident would happen. One of the men said that a year ago last February while the ship was at Magdalena bay the engineer of the cruiser New York was sent for to inspect the boilers, and he reported that they were in good consiliton.

While the vessel was in San Francisco last year the talk of defective boilers again arose, but no steps were taken to remedy them. The upper deck, amidship, presents a mass of wreckage. The smoke stacks have been blown out of place and the superstructure is bent and twisted in all sorts of shapes. The plates on the side are bulging out and leaks in a number of places are letting in the water.

John Turpin, a negro of the crew, who was on board the Maine when she was blown up in Havana, was on board the Bennington and again escaped injury. He rendered valuable aid in rescuing the dead and wounded.

The list of victims of yesterday's appalling explosion on board the gunboat Bennington grows with the hours. Forty-nine known dead is the latest summary.

This includes the 42 bodies at the various morgues and seven bodies which are still floating about in the boiler rooms and which cannot be reached. Following is a revised and corrected list of the dead:

Ensign N. K. Perry, F. W. Brown, J. Newcomb, B. A. Hughes, A. B. Ensel, A. Kamerer, W. Cherry, C. Rushing, A. H. Scruggs, R. Haggbloob, W. R. B. Carr, H. A. Saunders, E. Dresch, J. L. Burns, M. G. Quinn, C. J. Kuntz, J. Hiltscher, G. Brownlee, E. M. Geiss, Payton Carpenter, Charles McKeen, E. W. Brunson, J. Hunt, E. B. Robinson, J. C. Barchus, W. C. Wilson, C. F. Nelson, E. B. Ferguson, L. B. Archer, W. G. Chambers, John McKune, C. J. Exell.

President Shocked at Disaster

Oyster Bay, L. I., July 24.—President Roosevelt was shocked greatly at the news of the disaster to the Bennington, in the harbor of Sandiego, Cal. Beyond expressing his profound regret he chose, however, to reserve expression on the matter until he should have received complete details.

Governor to Fill Vacancies.

[illegible] are two vacancies that the governor will have to fill in county offices in a few days. One is that of Sheriff J. T. Conner, of Macon county, who died Friday, and the other commissioner of Lowndes, where a vacancy exists. The news of the death of Sheriff Conner reached the office of the governor by long distance telephone, being sent in by Judge Brewer, of the circuit court. He was serving his first term in county office, and was a fine man in every way. The judge pays him high tribute.

LOST HIS LIFE TO SAVE TWO.

Flagman Rescues Woman and Baby From an Awful Fate.

New York, July 24.—In saving the lives of an unknown woman and her baby, William C. McDonald, flagman for the Long Island railroad, died a martyr at his post in Long Island City last night.

McDonald had obtained the job only a week ago. His widow and four children are left destitute. Hundreds of toilers in nearby factories used the crossing where McDonald was stationed. He was to have been releived in 15 minutes when he saw a woman with her babe in her arms, walk up on the track directly in front of an incoming train. The flagman sprang to her side just in time to drag her from the tracks. As he turned back the train on the opposite track crushed his life out.

The woman witnessed his fate and ran screaming from the scene. More than 50 persons have been killed on the same crossing in the past three years.

Attorney Charged with Larceny.

New York, July 24.—Growing out of the sensational arrest some weeks ago in an apartment on Riverside drive, of two men charged with larceny of $12,800 and attempts to secure $7,500, Champe S. Andrews, a well known attorney and politician, has been warned against sailing for Europe today as he had planned. Two attorneys accompanied by a city detective, met Andrews last night as he left a train at the Grand Central station. The officials informed Andrews that if he persisted in going to the steamer this morning they would arrest him on allegations of extortion. The lawyer at once declared he would remain, and hold himself in readiness to meet any charges. On the strength of this promise no action was taken.

Cabinet Will Not Resign.

London, July 24.—The dispatches of the Associated Press indicating that the British government decided at yesterday's cabinet meeting not to resign are definitely confirmed. The advisability of an autumn dissolution is still under consideration by the cabinet but it seems that the mapority of the ministers are opposed to it, especially now that the government whip has received assurances that there will be no further slackness in attendance by the absentees who were responsible for Thursday's defeat of the government.

Trouble Brewing in Balkans.

Salonica, July 24.—A report received here says that a large Bulgarian band attacked the villages of Baltina and Gradeshuitza in the Morinovo district last night, murdering the entire population indiscriminately and that the carnage did not end until this moring. The number of victims is not known. Troops proceeded to another village in the district and finding that the population had fled burned the village, the inhabitants of which were suspected of having murdered 30 Turks near Doiran.

Attempt to Assassinate Sultan.

Constantinople, Friday, July 21.—Evening—The authorities are jealously guarding all the details of today's futile attempt on the life of the sultan. Although the outrage occurred at 1 p. m., the fact that the sultan's life had been in danger did not become generally known until night, when it aroused widespread excitement and it was the first bomb explosion of this character that ever occurred in Constantinople. The majority of those killed or injured were soldiers who [illegible]

CREWS OF RUSSIAN SHIPS IN MUTINY

Reported That the Black Sea Fleet Again In Trouble.

POLITICAL REVOLUTION BREWING

All of the Summer Maneuvers of the Fleet Are Cancelled—Editors and Professional Men and Their Families Are Imprisoned.

Odessa, July 24.—A report has reached here from Sebastopol to the effect that a mutinous conspiracy has been discovered among the crews of the vessels of the Black Sea fleet, in consequence of which the summer maneuvers have been cancelled. General Ignatieff, president of the special committee for the revision of existing laws designed for safeguarding public order, arrived here today for the purpose of investigating the disturbance.

It is reported from Sebastopol that General Ignatieff, after spending several days there sent for the representative Jews and informed them that unless they kept the Jewish people participating in the revolutionary activities of the city continue their movement he would destroy the city. The authorities of the city continue making wholesale arrests and causing the expulsion of citizens of advanced political opinions.

A number of professional men with their wives and families including four editors of the Odessa Novosti, have been imprisoned and will be expelled from the city. Renewed disturbances are reported in th ecountry districts. At Kartamyshevka peasants were complaining to the proprietors of their lands of the exorbitant rents and were attacked by Cossacks and infantry. Three peasants were killed 11 were wounded and 120 were arrested.

BOY CREMATED UNDER AUTO.

In Fatal Accident One Life Lost and Four Injured.

Indianapolis, July 24.—The burned body of 14-year-old Olive Johnson of Lima, O., and five other persons suffering from burns and bruises were dragged from beneath a burning automobile which plunged into a ditch on the river road about a half mile east of Broad Ripple, 7 miles northeast of this city, exploding the gasoline storage tank. C. O. Dale, of this city, who was driving the machine is seriously burned. The others who [illegible] tained severe burns and bruises were Clara Brennan, Muncie, Ind.; Ethel Jones, Shelbyville, Ind.; Inez Brennan Hazel Orr, both of this city.

The party was speeding along the river road leading east from Broad Ripple when the machine struck a rut. The forward wheels went into the ditch, overturning the machine and throwing the occupants underneath.

From the tail light the gasoline was ignited and two explosions followed, throwing burning oil over the [illegible] people pinioned beneath the machine.

TWO TRAGEDIES SATURDAY NIGHT

One Man Killed at Melrose and Another Near Newberry.

BOTH PARTIES WERE NEGROES

One Negro Was Killed by Accident, While Another Met His Death in Interfering With an Officer—Coroner's Jury Sat on Both Cases.

Information has been received in this city of two homicides which occurred Saturday night.

A colored man, Stepney Brown, was accidentally killed at his home near Melrose, a load of nine buckshot having penetrated his body, death resulting instantly.

The killing was done by Marsh DeBose, another negro. DeBose had a grievance against his father-in-law, John Roberson, and while he was calling at the home of Brown it is said DeBose came upon the scene and opened fire. Only two shots struck the man for whom they were intended, Brown receiving almost the full load. Roberson was wounded, but it is expected he will recover. DeBose made his escape. A coroner's jury held under the direction of Justice Lumpkin Sunday rendered a verdict that Brown came to his death by a gunshot wound at the hands of Marsh DeBose.

A Newberry Tragedy.

There was a tragedy at Newberry Saturday night which cost John Jenkins, a negro, his life for interfering with an officer in the discharge of his duty. Constable Siford was attempting to arrest a negro, when Jenkins charged upon him with an ugly-looking knife. In order to save his own life Siford was forced to turn upon the negro, with the result that his (Jenkin's) funeral was held the following day.

The coroner's jury sat Saturday and rendered a verdict of justifiable homicide.

HOT IN INDIANA.

Mr. and Mrs. J. M. Graham Want to Get Back to Florida to Cool Off.

Mrs. J. M. Graham, who, with her husband, is spending a few weeks at Martinsville, Ind., does not receive The Sun regularly and writes to ask that the management "get behind" somebody, as she misses the home news very much.

Mrs. Graham states that while everything is fine at the place where they are now sojourning, the weather is exceedingly warm. "The weather is very warm—much warmer than at home," she says, "and Mr. Graham and myself would appreciate our cool piazza at home today, where we are never warm to excess. It is nice to come North for the change, but all-the-year-round I would prefer Florida every time."

Mrs. Graham states that Mr. Graham is getting along nicely and is in fine health and enjoying himself immensely, with the exception of the heat. "There is one thing," she adds, "and that is, that while we are having a good time here, we will certainly appreciate our Florida home when we return."

DR. SLEDD'S SERMONS.

Preached Two Fine Sermons Sunday. Was Listened to With Interest.

Dr. Andrew Sledd, president of the University of Florida, favored the church-going people of this city Sunday with two magnificent sermons, which were listened to by large congregations who manifested the greatest interest.

Dr. Sledd preached in the morning in the pulpit of his own church, the Methodist Church South, and in the evening filled an appointment at the union service, which was held at the First Baptist Church. In the evening the church was so crowded that many who arrived were unable to secure seats.

Dr. Sledd is a pleasing and impressive, as well as an earnest speaker, and never fails to interest his congregation. It is hoped that he will favor the people often with his eloquence and earnestness when the University term opens here.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisment, for I am widely known in this locality."

GAINESVILLE HAD BIG SUNDAY FIRE

House and Contents, Valued at $4,000, Completely Destroyed.

DISCOVERY IS MADE TOO LATE

To Save Property, Notwithstanding Heroic Efforts of the Fire Department, Which Responded Promptly—Family Absent at Time of Conflagration.

An alarm of fire was turned in from Box 43 a few moments after 2 o'clock Sunday afternoon, which summoned the department to the house owned by the Abstract and Realty Company and occupied by Charles S. Hill and family, 505 West Main street S.

The building and contents were destroyed, involving an aggregate loss of $4,000.

Notwithstanding that the fire department responded with admirable promptness the building was too far gone to save it. The flames had evidently been under way for some time when discovered by W. J. McCormick, who resides on the same street in the vicinity of the Hill home. When Mr. McCormick noticed the fire the flames were licking through a window on the second floor and the interior of the building was a seething mass. The alarm was immediately turned in, but it was necessary to go quite a distance to an alarm box, and even after the discovery the fire had an opportunity to make considerable headway.

The alarm attracted a large number of spectators, many of whom were anxious and willing to save the contents of the building, but the flames had gained such headway that it was impossible to enter the house, so excessive was the heat.

At the time of the fire there was no one in the house. Mrs. Hill and children are visiting in Palmetto, and Mr. Hill was en route to Macclenney, where he was going in the interest of the Cummer Lumber Company, by whom he is employed as a civil engineer and surveyor. Mr. Hill was in the house a half-hour before the fire was discovered, but merely went to get his valise, and left immediately for the Seaboard Air Line train. He was intercepted at Waldo by telegram, however, and returned to this city, where he found his furniture and other valuable household effects in ruin.

The building was valued at $2,000, and was insured with E. E. Voyle for half that amount. This was one of the most comfortably furnished homes in the city, and the loss of household furniture, etc., is placed at more than $2,000, with an insurance of $1,200. This insurance was with A. M. Cushman.

At one time during the fire the residence of C. C. Pedrick was threatened, and it was due to the most heoric efforts that the building was saved. Mr. and Mrs. Pedrick desire to extend thanks to the department and their friends for their excellent work in saving the property. A great many of the household effects of this home were moved into the street, as it was thought sure the house would be destroyed.

The origin of the fire remains a mystery. Mrs. Hill has been in South Florida for several weeks, and the house has been vacant. Mr. Hill spends seven-eighths of his time away from home, hence there has been no matches or conbustibles of any other kind used about the place, and the electric current was not on at the time.

Manager Voyle of the Abstract and Realty Company states that the company will rebuild as soon as possible, as the location is a desirable one.

CARD FROM MR. ROGERS.

He Suggests the Organization of a Society for Charity Purposes.

Editor Sun: If you will be kind enough to allow me space in your valuable paper, I desire through it to express this note to the citizens of Gainesville, believing many, if not quite all of them, to be as much interested in the success to be attained in the formation, and successful operation, of a United Charity Society, which shall have for its scope of operation the city of Gainesville, and for its purpose the caring for any and all objects of charity which may come within our gates. I therefore desire to appeal to them through your paper for the early formation of such an organization. True, there are perhaps as few real objects of charity in this city, as in any city of its size in the State [illegible] in all places of our population there are invariably some characters who must feel the touch of human kindness or suffer. The worthy are sometimes forced to suffer for lack of immediate help, while the charitably inclined people of the city are often imposed upon for lack of a systematic method of handling that which they believe necessary to be done.

My plans are these: Form a committee of seven, to be composed of the Revs. Hay, Nixon, Craighill and Rogers, together with three ladies of the city, thus comprising a committee of seven. Let this committee meet and organize, by electing a chairman, secretary and treasurer, and solicit from the city at large, a charity fund, which subscription may be paid monthly or annually as the subscriber may elect. Place the amount first subscribed in the bank to the credit of this committee, and refer all objects of charity to them for care and help. Give them complete control of all objects of charity that may be found in the city. Let them handle the cases as prudently as they would their own business, and draw on this charity fund to cover expenses. This committee might also publish, once a quarter, how the society stands, with reference to its funds.

I will deeply appreciate any suggestions that may be offered, improving upon this plan, or any assistance that may be lent its successful formation.

With deep sympathy for unfortunate humanity, I beg to remain,

Yours to help,
S. B. ROGERS.

INTERESTING LETTER

WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Color Bearer of the Woman's Relief Corps, Sends Thanks to Mrs. Pinkham.

Mrs. Sarah Kellogg

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Colo., to Mrs. Pinkham, Lynn, Mass.:

Dear Mrs. Pinkham:

"For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope.

"I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Health is too valuable to risk in experiments with unknown and untried medicines or methods of treatment. Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

VOTES ARE ILLEGAL.

A Mistaken Idea Changes the Library Contest Vote.

The Sun is in receipt of a letter from Mr. Johnson, the gentleman who was here in June and made arrangements for the library contest which is now on in this city. There was complaint made to Mr. Johnson that the 35,000 votes given to the Odd Fellows' Home in the real estate transaction was illegal, as the advertisement of Mr. Thomas did not include his real estate business, and if it had done so, only 1,000 votes could have been counted. The letter explains the matter:

"HOT SPRINGS, ARK., July 21, 1905.

"MR H. H. MCCREARY,

"Dear Sir: It has come to my notice that Mr. W. R. Thomas is issuing votes on real estate deals. Such votes are not legitimate for the two following reasons:

"1st. This firm did not purchase the real estate privilege.

"2d. Had they done so, by referring to The Ocala Star you will observe that a real estate agent is permitted only to issue 1,000 votes on any transaction, large or small, and it would be easily recognized as unfair to allow one vote with each ten cents on such deals, when one sale could throw the library to any contestant.

"I am writing Mr. Thomas and am sure the error was innocent on his part and that he will desist from this in future.

"In the event such votes are submitted to you same should be thrown out.

"Very truly,
"A. O. JOHNSON."

CENSUS WORK BEGINS.

Enumerator T. J. McRae in Gainesville Consulting With Deputies.

T. J. McRae of Hawthorn, census enumerator of Alachua county, was in Gainesville Monday, consulting with his deputies who will assist him in taking the census of this county.

The blanks, etc., have been issued to the enumerators throughout the State by Agricultural Commissioner McLin, and are the most complete in regard to population, number of farms, deaths and manufacturing concerns that Florida has ever had. Since the last census was taken, which was in 1895, both Gainesville and Alachua county have steadily advanced in population.

It is Mr. McRae's intention to take all of the precincts in the eastern and western part of the county first, and finish the enumeration with the Gainesville precinct. He thinks he will complete the work by October 15 and have everything in readiness to submit to the authorities on time.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W McCollum & Co.

HAMMOND-PAULLING

Two Prominent Young People Join Hearts and Hands.

Mr. Thomas J. Hammond of Hawthorn and Miss Queen Paulling of Lake View, this county, were united in the holy bonds of wedlock Sunday afternoon at 4 o'clock, at the home of the bride's parents, Hon. and Mrs. F. F. Paulling.

The ceremony was performed by Rev. Mr. Allen of DeLand, pastor of the Baptist church at Hawthorn, in a very solemn and impressive manner. The wedding was a very quiet one, only the relatives of the contracting parties being present.

Miss Paulling is the daughter of County Commissioner Paulling, and a young lady of charming disposition. Mr. Hammond is one of Hawthorn's leading business men, and is well and favorably known throughout the State.

Mr. and Mrs. Hammond will reside in Hawthorn.

Forced to Starve.

B. F. Leek of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At all drug stores; only 25c.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

MILTON RAWLINGS GUILTY.

Of the Charge of Murdering Carter Children—No Recommendation.

Valdosta, Ga., July 24.—Milton Rawlings, charged with the killing of the two Carter children, was convicted of murder in the first degree late last night. The verdict of the jury carries no recommendation, and unless a higher court interferes, Rawlings will pay the penalty of his alleged crime on the gallows. It is understood that sentence will not be passed until the cases against the other Rawlings have been disposed of.

Rawlings appeared cool and unconcerned as he was brought into the court room by the sheriff. The young man watched each face of the jury closely as they filed into the room and took their seats near where Rawlings was seated.

"Gentlemen of the jury, have you reached a verdict?" asked Judge Mitchell.

"We have, your honor," replied the foreman, as he arose and handed a paper to the solicitor general, who read:

"We, the jury, find Milton Rawlings guilty."

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

AN ADVERTISING THOUGHT.

The newspaper wants to demonstrate that advertising pays and can and will do so if the advertiser will do his part. It is money in the pockets of both advertiser and newspaper when the advertisements are kept up-to-date.

The dispensary or local option will not decrease drunkenness to any great extent. The decrease of the liquor habit depends largely on the consumer.

The large attendance at the First Baptist Church, Sunday evening, to listen to the sermon of President Sledd, was a compliment to that gentleman. His lecture, however, was a most scholarly effort.

There is always a large-sized noise made whenever the press tries a case before it reaches the jury. But the four-corner weekly that could not have done better in the Park-Bomford case at Tampa than that jury at Tampa did, ought to suspend publication.

Because Gainesville obtained the University, her people are putting on all the city airs possible, and among other things are going to a great deal of expense in building good roads and streets generally. O, that Quincy could secure a University for a month or two!—Quincy Times.

The Sun has received another communication from Prof. J. A. Ormond, begging one more chance to fire a volley of adjectives, etc., through its columns at Dr. Kelley, and we most respectfully decline to continue the controversy. We will be obliged to stop it ourselves sometime, and now is the time.

The first issue of The St. Lucie County Tribune, published at Fort Pierce by Messrs. A. K. Wilson and F. J. Reed, made its appearance on Friday last and it is one of the handsomest five-column quarto sheets in the State. It will endeavor to only be a newspaper—not an organ—and if it sticks to its text, is sure to succeed. We wish The Tribune abundant success.

James Williams, who was serving a life sentence for killing Mark Bartleson at Miami, several years ago—a most deliberate murder, if our memory serves us correctly—has been pardoned. Walter L. Taylor who, after having called some very vile name, insulted Hon. W. B. Lamar, and for which offense was sentenced to prison for two years, and no pardon can be obtained that he may be made a free man to care for his wife and five children who are in want.

Explosion of the boilers of the United States gunboat Bennington, at San Diego, Cal., Friday morning, July 21, due to their being defective, a condition known but never remedied. Nearly 200 men on the vessel when the explosion occurred, and 41 are reported dead and upwards of 75 injured. Such carelessness seems to be criminal beyond all reason, and the Bennington ships above all others should be provided with the safest and best machinery.

UNCHARITABLE JOURNALISM.

The Twice-a-Week Sun is the paper that reaches more people in Alachua county than all others put together. Advertisers should make a note of this fact.—Gainesville Sun.

Note—The foregoing squib may be a fact, but if it is a fact, it is handled a bit too careless. We print an average of about 800 copies a week, and it is a well-known and thoroughly established fact that all who do not subscribe to The Hornet borrow it, which gives it a circulation of about 3,000. Again, should The Hornet and Star consolidate their advertising forces, The Sun would have to go away back and sit down.

"Advertisers should make a note of this fact" also!—High Springs Hornet.

Editor Setzer is the most sensitive man engaged in the newspaper business. There is nothing "uncharitable" in the claim of The Sun. It is based on business principles and can be substantiated by our subscription books. He says: "We print about an average of 800 copies a week." If this statement is true, why did he only order 400 copies of an advertising supplement which he was paid to insert in his regular edition? Furthermore, if he prints "about" 800 copies a week, why did he tell an employe of The Sun some time ago that he printed 17 quires—408 papers? The Twice-a-Week Sun has printed and circulated during the past year an actual average of (not "about") 3,500 copies per issue, and we are prepared to substantiate our claim that The Twice-a-Week Sun reaches more people than all the other weekly papers in the county combined. The statement is not "handled a bit too carelessly," and "should The Hornet and Star consolidate their advertising forces" the combination would look like "thirty cents" if the circulation of the two papers should appear in parallel columns with that of The Sun.

We are perfectly willing to publish the statements of the postmasters at Gainesville and High Springs as to circulation of the three papers and defy Editor Setzer to accept the proposition.

MOST RIGHTEOUS JUDGE.

Trial by jury, as recently shown in the trial of Harry Bomford of Tampa, for assault with a deadly weapon, when he shot Capt. Park at the home of the latter, has proven in this instance to be a farce. It is far better to do away with all juries and place the power with the judge, when such sickly specimens of men compose them as did in this case.

But the charge of Judge Gordon, which here follows, shows that men of his caliber are needed in our land today, to put a stop to the actions of such lecherous whelps who destroy the homes of honest people and then gloat over their despicable actions to those of their ilk. The law has no way of doing them ample punishment, as the world would be better without them, and they are let off on very light punishment for such heinous crimes. Judge Gordon truthfully said:

"This court does not set itself up as a preacher or a reformer, but feels it is proper, under the circumstances, to speak plainly on this occasion.

"In all civilized countries the right of a man to protect the honor of his family is recognized, even when there is little honor to protect.

"By your own testimony you are guilty of assault with intent to murder. There was ample evidence to support the charge, and if the jury had convicted you the court would have given you the full extent of the law.

"Even in savage countries the sanctity of the home is recognized. I am convinced that my construction of the law on this subject is based on sound common sense and it will continue to be the law in this court while I am on the bench, until my decision is reversed by some higher court.

"It does not matter how this matter may affect you, or Mr. Park, or any other individual. The question is the preservation of the home in this county and State. No matter what may be a man's views morally or immorally, you, a married man, had no right to leave your home to violate the sanctity of another's. If I were passing sentence on my own brother for a crime like yours I would give him the extreme penalty.

"The sentence of the law is that you be confined in the county jail at hard labor for a period of one year."

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Fred Cook, the colored man hanged at Ocala July 21, declared his innocence to the last and just before the drop fell he pointed to a man in the crowd named Allen Love and said: "There stands the man that killed Pitts and he should be here on this scaffold instead of me, and I should be out there a free man. The day will come when all you people, both white and colored, will find out that I am being wrongfully hanged." He then related the whole story and sang a song before he was swung off.

The Limit to Their Credulity.

Kansas editors are skeptical. An exchange asked: "What do you think of an artist who painted cobwebs on a ceiling so naturally that the hired girl wore herself into an attack of nervous prostration trying to sweep them down?" Most of the editors say that there may have been such an artist, but there was never such a hired girl.—Kansas City Journal.

A Timely Warning.

Jimmy—What's the matter with you? You don't never go in for any fun at all nowadays. Tommy—No, I'm bein' good because I'm goin' to have a birthday purty soon an' I want to git a present. Jimmy—Better be careful an' not be too good or mebbe they won't give you nothin' but a Bible.—Philadelphia Press.

Out of Pocket, Though.

When General Lafayette attended Lamarque's funeral the crowd took the horses out of his carriage and drew him home themselves. "Were you not honored and pleased?" asked a friend. "Very much pleased," replied Lafayette, "but I never saw my horses again."

Appalling Suggestion.

Bride—My dear, this hat has been crushed beyond redemption, and I must have a new one. Bridegroom—Very well, my darling. I'll stop in somewhere on my way home and buy you one. (Bride faints with horror.)

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

AMIABILITY.

One Need Be Neither Weak Nor Stupid to Have This Quality.

By a process of false reasoning amiability has been connected both colloquially and in writing with weakness and stupidity. Strength and ability insure it to no one; consequently, says that hasty judge, the public, it usually exists without them. Nothing was ever more untrue. Stupid people and weak people may be—they very seldom are—amiable by nature, but they are the only people for whom it is nearly impossible to cultivate amiability. It is very difficult for a really weak man to be sweet tempered.

The first thing which the person who desires to be amiable must determine to do is never to produce fear among his own surrounding—to be willing, in a social sense, to let every one off, so that no one regrets too bitterly having said a foolish or ill judged thing before him, but comforts himself with the thought that it is forgotten; never, that is, to lower any one in his own esteem. The second is not to differ about matters of no importance, not to debase sincerity into contradictoriness, and not to set for other people a standard which it is unreasonable to suppose, from previous experience of their characters, that they will ever reach. The third is never to let his good principle interfere with some one else's harmless privilege, to remember that praise is a positive necessity to the spiritual and mental development of the young, and that injudicious blame acts as a blight. —London Spectator.

HOW TO SUCCEED.

When You Go to Work Take the Whole Man to the Task.

Only fresh, spontaneous work really counts. If you have to drive yourself to your task, if you have to drag yourself to your work every morning because of exhausted vitality, if you feel fagged or worn out, if there is no elasticity in your step or movements, your work will partake of your weakness.

Make it a rule to go to your work every morning fresh and vigorous. You cannot afford to take hold of the task upon which your life's success rests with the tips of your fingers. You cannot afford to bring only a fraction of yourself to your work. You want to go to it a whole man, fresh, strong and vigorous, so that it will be spontaneous, not forced; buoyant, not heavy. You want to go to your work with creative energy and originality—possessed of a strong, powerful individuality. If you go to it with jaded faculties and a sense of lassitude after a night's dissipation or loss of sleep, it will inevitably suffer. Everything you do will bear the impress of weakness, and there is no success or satisfaction in weakness.

This is just where a great many people fail—in not bringing all of themselves to their task. The man who goes to his task with debilitated energy and low vitality, with all of his standards down and his ideals lagging, with a wavering mind and uncertain step, will never produce anything worth while.—Success.

Flying Fish.

Flying fish are very voracious. In their turn they are preyed upon by barracudas, sharks, dolphins, billfish, redfish and a hundred and one others. Nature has colored the flying fish protectively. The back is a deep blue, merging into the blue of the seas they frequent, so that they are invisible a few feet below the surface, while the underneath is a dazzling white, and to a fish that looks upward must merge into the light falling on the sea. In addition they possess the unique power of flight. Flying fish are about seven inches long, and the spread of wings is about equal to their length. The "wing" is of thin, gauzy substance, having stiffening sinews, like the fiber of a leaf, to strengthen it.

The Lilac.

Like the tulip, the lilac is believed to have come westward from Persia via Turkey in the sixteenth century. Its name is Persian. In the English language the color is called after the tree, but the tree originally received its name from its color since it is clearly traceable to certain Persian and Sanskrit adjectives meaning "blue" or "indigo colored." The "lilaj" of Persia was the indigo plant. Probably the first mention of the lilac in English is in Bacon's essay on gardens. He favored the spelling "lelacke."

Mixed History.

Around the great striking figures of history the small boy weaves curious answers. "Moses' mother pitched his little cradle within and without with pitch and left him there in the pool of Siloam, but when the daughter of Solomon got the green leaf from the dove she hastened and brought food convenient for him, and the babe crowed thrice and grew up in her court."—Agnes Dean Cameron in Century.

KEEN SENSE OF SMELL.

Chamois Can Wind a Hunter Over Half a Mile Distant.

Judging from his failure to distinguish objects, such as a man's head or hand, as long as they are motionless, I should say that the organs of vision of chamois are scarcely more acute than those of human beings. On the other hand, their sense of smell is quite extraordinary; hence the wind is by far the worst enemy of the hunter. The shifting eddies and currents blowing now this way, now that, now up hill, now down, multiply tenfold the chances in favor of the game.

I have often asked friends of mine who have hunted in various countries as to the distance at which deer and other wild animals can scent a human being, and most of them seem to be agreed that they will wind you more than a mile off. I have certainly seen chamois over half a mile distant make off in alarm when they could not possibly have seen anything to disturb them. It is curious, too, how much more the hunter's odor seems to terrify them than the mere sight of him. In the latter case unless you are quite close they whistle and move off quietly, turning round every few hundred yards to look, while if they get your scent they will throw up their heads with an expression of utter disgust that is highly diverting and without hesitating a moment gallop away at top speed.—Longman's Magazine.

THE SPONGE FISHERS.

Process by Which Their Crop Is Prepared For Market.

As soon as the sponges are brought aboard they are thrown in heaps on deck near the scuppers, where the barefooted sailors tramp and work out the ooze; then, strung on lines, they are soused over the side and trail overboard some ten hours during the night. To break and separate from them shellfish and other parasites they are beaten with heavy sticks on deck or on the reef rocks off Tripoli, and after being well soaked in the sea again many are bleached by being immersed in a tub of water containing a certain solution of oxalic acid, from which they emerge a yellowish color, care having been taken to avoid burning them.

Often great strings of sponges bleaching and drying in the sun cover large portions of the standing rigging of deposit boats when in port. When dry they are worked up in sand, then packed in boxes ready for shipment. A quarter to a third of the crop is sold direct from Tripoli, mainly to England and to France and Italy. The bulk of the crop, unbleached and unprepared, is taken at the close of the season to the islands from which the boats came, where long experience, manipulation and cheap labor prepare them for the European market.—Charles Wellington Furlong in Harper's Magazine.

Baking Watches.

"I will be with you in a moment. I must finish the baking of this batch of watches first."

The speaker was a jeweler. He said as he worked:

"I suppose you are surprised at the idea of watch baking. I will explain. The machinery of a watch is delicate, yet it must work the same in winter as in summer, the same in Cairo as in Iceland. There is only one way to accomplish this—the watch must be regulated to heat and cold.

"I am regulating these watches to heat. Afterward, in a refrigerator, I will regulate them to cold. Then when they go out in the world they won't disgrace themselves in any climate. Chronometers must be regulated more carefully than watches. They are often kept for weeks in temperatures that are now zero and now 120 degrees."—Philadelphia Bulletin.

Incentives to Marriage.

Apparently the German town of Haschmann does not believe in a state of single blessedness. Annual prizes are offered to the men who wed the ugliest, the most deformed and the oldest women in the town. Eighty dollars is paid to the man who marries the ugliest, while but $60 is the reward for the one marrying the cripple. All women over forty who have been jilted at least twice bring their spouses sums which vary according to the state of the fund, which was left by a rich resident of the town. The average price paid is $50 to each unless they should be unusually numerous, while the trustees are empowered to pay a larger sum when, in their judgment, it seems wise to hold forth a special inducement to procure the marriage of some particularly unfortunate woman.

Curiosities About Wood.

The strongest wood which grows within the limits of the United States is that known as nutmeg hickory, which flourishes on the lower Arkansas river. The most elastic is tamarack, the black or shellbark standing not far below. The wood with the least elasticity and lowest specific gravity is the Fiscus aurea. The wood of the highest specific gravity is the blue wood of Texas and Mexico. The heaviest of the foreign woods are the pomegranate and the lignum vitae, and the lightest is cork. Four hundred and thirteen different species of trees grow in the various sections of the country, and of this number sixteen, when perfectly seasoned, will sink in water. These woods of high specific gravity grow mostly in the arid regions of New Mexico, Arizona and Nevada.

No Reason For Two Trips.

Patrick's wife was "ailing," and Patrick put on his Sunday best and walked four miles to the doctor's house to tell him about her.

"Now," said the doctor, when he had heard all Patrick had to say and had prepared some medicine, "here is something for your wife. I've written the directions on the bottle and I want her to try it faithfully for a fortnight. Then, if it doesn't relieve her, come to me again and I will give you another prescription."

"Now, docther, see here," said Patrick, standing straight and looking grimly at the physician. "If you have your doubts o' this curin' Mary, as it's ividently you have by the way you spake, why don't you give me first what you're goin' to give me last?"

"Whey I gwine?" queried the old woman sharply. "Whey you reckon I gwine? I ain't gwine. I done been whey I gwine."

ANTI-PASS BILL DEFEATED.

New Counties Heard from—Senate Passes Many Bills.

Atlanta, July 24.—With but two votes needed to send it over to the senate, the anti-free pass bill by Mr. Hall, of Bibb, went down in defeat in the house Friday, because it fell barely short of the required constitutional majority.

Advocates of the bill declare that they needed but one vote more to pass it; that if it had received 87 instead of 86 votes, the vote of Speaker Slaton would have made the required 88, which would have meant the passage of the bill. Speaker Slaton would give no intimation as to how he stood, but the friends of the measure stated that they had every reason to believe he was with them and would have so voted.

Want New Counties.

The new county of "Jeff Davis" which it is proposed to create from parts of the counties of Pike and Monroe had an earnest and able advocate before the house and senate new county committee Friday afternoon in Hon. A. A. Murphy, of Barnesville.

Mr. Murphy called his witnesses and presented his case in an expeditious manner that seemed to please the committee.

The proposed new county of "Cromartie" was the next on the docket. It is proposed to create this county from parts of the northern sections of Appling and Coffee counties, with Hazlehurst as the county site.

In the Senate.

A large number of local house bills and bills originating in the senate were passed by the upper house Friday.

Among the important measures passed by the senate was Senator Hand's bill permitting railroads to make up a train of non-perishable freight when the amount of perishable freight to be removed on Sunday is not sufficient to justify the train moving.

Senator Hogan's measure, providing for an increase in the salary of the attorney general of the state to $3,000, was passed by the senate. The salary of the office at present is $2,000.

These bills went through without discussion and with practically no opposition.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

TOBACCO REPORT NOT CORRECT.

Investigation Shows that Three Errors in Acreage Were Made.

Washington, July 22.—A final report on tobacco acreage and condition was issued by the department of agriculture Friday, the report having been made up as a result of the discovery and correction of three errors in the computations for the report of June, 1905.

The preliminary report on tobacco acreage was based solely on information received from a corps of special tobacco correspondents located in the tobacco growing states, and as made up and published, showed a large increase in the acreage over that of the preceding year in the burley districts of Kentucky, Ohio, Indiana and West Virginia, and in the regie, or dark, district of Kentcky and Tennessee.

The showing made by the report was criticised by persons cognizant of the actual conditions in these districts, and as a result of complaint made to the department, Secretary Wilson practically determined to have made a special investigation.

From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful."
